It is clear why the First world would find it in their best interest to produce offensive material that creates ill feelings amongst a considerable share of the world's population. Isn't it sufficient that the alleged "War on Terror" has persecuted the Muslims of the world on a level never before observed? Israel and her illegitimate parents in the international Zionist Establishment were able to produce a lot of the sponsorship (to maximum heights), which Israel benefited from throughout the Cold War and the result of the "Holocaust" which allowed domination of Jews, by the same guardianship. The reprinting of the cartoons in the name of "freedom of expression" has once again illustrated that the "clash of ignorance" means that West is not ready to tolerate Islam and Muslims". The spirit of Crusades is burning alive and the role of Church in this regard is very mischievous. The Pope of the Roman Catholic Church and the leader of the Protestant, Archbishop of Canterbury never play a role of guidance towards their disciples to refrain to hurt the sentiments of Muslims. Instead they pass furious comments time to time against the laws of Islam. If in any part of the Muslim world, garbage is found in the vicinity of Church, they make hue and cry but on the atrocities against the supreme personality of Islam they are sleeping peacefully. On public platform and during visit of Muslim institutions they act as they are guardian of tolerance and harmony between different religions, but their silence on the venom attitude of the sick minded intelligentsia of West is mysterious, which discovers the nasty spirit of their notorious predecessor Pope Urban-II (1035-1099).

"Referring to the offensive cartoons of Rasulullah(S), first published in a Danish newspaper, at the ceremony of Awarded Honorary Doctorate by University of Évora for "Material and Spiritual Service to Humanity" Évora, Portugal, on 12 February 2006, the Aga Khan explained it was more a "Clash of Ignorance" than a 'Clash of Civilizations'. By using the word 'Ignorance' he beautifully discovered the approach of stone-age-era, otherwise no civilization allows to hurt human feelings. Western world is demonstrating mentality of stone-age-era with especial reference of Islam and Muslims, otherwise they are far away from a civilize society. Their purposeful ignorance is more dangerous than the venom of snake. Due to this ignorance, Muslim world is facing danger and it gave birth of a satanic breed that believe 'Freedom of expression' means legal right to insult divine persona of Islam. 'Freedom of expression' does not mean damaging the human dignity, decency, and harmony in any society; it does not mean freedom of Insult.

In fact, West calculated well that next century is for Islam, so they adopted strategy to crash the Muslims with all possible methodologies. Western governments hold aloft the banner of "freedom of speech" when it comes to insulting Muslims and Islam, yet attempt to silence through fear, threats and legislation. The provocative moves by Western media to insult and attack Islam is an old mission. Many Western countries keep silent on the war-crimes committed by Allied forces in

Iraq and Afghanistan through medieval laws. They prevent Muslim women from wearing the Hij'ab, They argued that is significance of backward which has surely proved the critics wrong. A woman can do everything in the Muslim dress. With all possible methods they force Muslims to accept their definition of 'freedom', which is nothing, but to insult and abuse Laws of Islam. It is high time that Muslims living in West should awake and demonstrate through character what actual Islam is.

The cartoons published through different sources on media is the Contempt of the divine persona ever appeared on the earth, Rasulallah(S). Series of atrocities are recorded in this regard. Western media also confirm their enmity; they repeated the same attack, as if they were trying to re-open the old wound, when they argued in support of the images that were published. What can one say in response to this open declaration of enmity? Should we look to the other side, become deaf and keep silent on the trial, while our hearts are burning? Wallah! By the honour of Rasulallah(S) our graves are dearer to us than the lust of the world and its affairs. Indeed! Honour of our ancestors is in sacrifice for Rasulallah(S). There is no phrase that can cover all the features of greatness of Rasulallah(S); and there are not enough words to describe his divine status - a loftiness that overwhelmed all people in all ages, and was decreed to be eternal. It is this greatness that is instilled in all hearts, settled in the souls, felt by all the people and even by the enemies of Islam.

Western media argued that they allow, promote and practice freedom-of-expression; by publishing cartoons is a non-convincing claim. All constitutions of the World and international organizations insist on and demand to respect all the Prophets and Messengers of Allah. Moreover, they confirm the necessity to respect the Divine Messages, respect others and do not attack the privacy, dignity and honor and principles of others. In the International World Federation Council of media and press people, it is stated: Media people must be alert of the risks that may arise as a result of prejudice and discrimination implied by the media. The Council would exert every possible effort to avoid being involved in such calls, which are based on prejudice and religion, sex or other social discrimination. A media man may commit a dangerous professional deviation such as: claiming other's work, ill-interpretation of facts, false accusations of others, condemning others for no basis, accusing others with their integrity and honor for no sound basis or accepting bribes to either publish or prevent the publishing of specific materials.

Intelligentsia should realize that it is their duty to give an honest attention to the aforementioned items and through the general framework of the law in each country. Therefore, we also base our opinion and/or statements herein on an honest and intelligentsia proclamation demanding to all the responsible involved in the heinous crime of print to apologize for what they committed. Undoubtedly, what the 'evil minded' published is harmful not only for Europe and America, but also to more than one-billion-three-hundred-million Muslims along with others who are fair and just people. This heinous crime invites Muslims to think to find out the strategy to counter technically such attacks, which hurt their sentiments. We would like to remind with the decree which the Human Rights Agency in the United Nations adopted on the 12th of April, 2005. This decree insisted on the ban of distortions and vicious attacks against religions and especially Islam; which had been strongly attacked in the last few years.

It is the ripe time that Muslims should promote the teachings of Rasulallah(S) through Media. If every Muslim country held a convention to counter the attack against Rasulallah(S), this by itself would convey a message to the modern world that attacking Rasulallah(S) is something that the Muslims will not tolerate. We Muslims will defend the honor of our religion, Qur'an, our beloved Rasul(S), his Ahl al Bait & the Companions. Muslims will not allow people to humiliate them in the name of freedom of expression. We respect the beliefs and the heroes of other religions and we expect the reciprocal response from the followers of the other religions or ideologies. It is the violation of basic Human Rights of believers of all religions worldwide. Offending, insulting and defaming someone is also a breach of human rights. It is the firm duty of all Muslim countries to discuss this matter with full force with the UN, EU, OIC, governments of all member states of the UN. Capital punishment is the only reward, according to the Shariah Law for involve in Tawhin-e-Risalah. Therefore Muslim countries should be declared to all those "Persona Non Grata" who have any share in this heinous crime. Around the world, Muslims should organize a Day of Remembrance of Muhammad(S), and discuss his Wonderful Character. Our media is totally in the clutches of Zionist lobby which exploit common people through their tout anchors, who reproduced what their masters say. It is time that sincere Muslim communities take step forward and launch their TV channels to promote identity of Muslims and encounter invaded nude vulture culture. At this critical juncture, it is the dire need of the time to understand the conspiracy and kick the slave minded mentality. Muslim communities should considered and design a strategy, which allows them to protect coming generation collectively. Unless Muslims never established their own Network and build Electronic Media stronger, they will face chain of trials and injustices and double standards of the West.
